- Linear booths (10x10, 10x20, etc.) will have an eight (8) foot draped back wall. On each side, a 32" draped side rail will extend from the back of the booth to the front of the booth.
- Pipe and drape is not provided for 20x20 or larger island booths. It is provided for 20x20 and larger peninsula booths and will be 8' high and 10" across centered in the middle – sides backing up to 10x10 booths will drop to 3' for the remaining 5'. Build your backdrop appropriately.
- Exhibitors are allowed to build their booth to the maximum height of 8 feet. This includes back walls and sidewalls. If the height of your display exceeds 8 feet, please notify Eric Udler at udler@allshowservices.com for approval.
- Solicitation/Sales Literature: **No sales solicitation or distribution of literature outside of your booth space.**
- **DISPLAYS:** Displays placed along the side drapes that are over 4 feet high should not extend into the booth more than 4 feet from the back. This will insure not obstructing the view of the neighboring booths.

- **DEMONSTRATIONS:** When sampling, demonstrating and/or entertaining attendees, booths must be arranged so that attendees coming into your exhibit do not block aisles or overlap into neighboring exhibits. If you expect many attendees to congregate in one area at one time, you must leave space within your own exhibit area to absorb the majority of the crowd.
- **AISLES:** The aisles are the property of all exhibitors; therefore, each exhibitor has the responsibility to assure proper flow of traffic through the entire exposition. When large crowds gather to watch a demonstration or entertainment and interfere with the flow of traffic down aisles, or create excessive crowds in neighboring booths, this is an infringement on the other exhibitors' rights. Aisles must not be obstructed at any time.
- **SOUND:** Police your own booth so the noise level from any demonstrations or sound system is kept to a minimum and does not interfere with others. Remember the use of sound systems or equipment producing sound is an exception to the rule, not a right. Show Management reserves the right to determine at what point sound constitutes interference with other exhibits and must be discontinued.
- **GADGETS AND GIMMICKS:** The use of photographers, musicians, entertainers, loud speakers, sound system equipment and noise making devices are restricted to within the booth. Balloons, horns and odors are not allowed. Show Management reserves the right to determine when such items become objectionable.

Tips for a Great Show!

1. Send free tickets via e-mail to your customers, prospects, friends and family. You get 20 free tickets and can buy additional for just \$5 each!
2. Promote your presence at the show in advance. Offer "SHOW ONLY" prices.
3. Remember that you are going to be spending long hours on your feet so wear comfortable shoes.
4. Order electrical and carpet, tables, etc. by February 10. You will save money. Check when you arrive to make sure that you have everything that you requested, and bring copies of your order forms with you.
5. Set up early.
6. Be in your booth early. Doors will open promptly at 3 PM on Friday and 10 AM on Saturday and Sunday.
7. Never leave your exhibit unattended. There will *always* be someone at your booth wanting to buy the moment you walk away.
8. Make your booth inviting. Don't barricade yourself inside.
9. Do not allow your staff to be on their phones, read books or magazines (and don't do it yourself) in your booth. Customers hate to disturb someone happily engrossed in reading.
10. People are more likely to visit you in your booth if you are standing up and looking attentive. Smile and invite them into your booth. Customers don't want to interrupt you if you are all sitting around engrossed in a conversation.
11. Look happy -- even if you're not.
12. Offer service, advice and a friendly face -- people always return to places they feel welcome.
13. Have a drawing for a special item -- an excellent and easy way to develop a mailing list.
14. Come to the show prepared.
 - Bring your own hand truck or cart.
 - A vacuum for cleaning your carpet at night.
 - An extension cord. Your power source is not always where you need it.
 - An electrical power strip.
 - Sheets for covering your merchandise at night.
